MEXICAN AFFAIRS AGAIN WORRYING AMERICAN CHIEFS

(Continued From Page One)
The request of the government of Guatemala, the state department inquired after the safety of the Guatemalan minister to Mexico, and learned that he was safe.
The difficulties of the situation from the viewpoint of the administration officials, are numerous. General Villa and his forces in the Yucatan section, are still in the north, and seem to be rapidly gaining ground in the military campaign, but their plans have, for their object at present, the domination of other parts of Mexico, particularly Tamaulipas and the northern part of the country.
The presence of General Villa at the Douglas, an intimate friend of Secretary Bryan, and a legal adviser in Washington of General Carranza, it is believed in some quarters may assist the negotiations which the state department has instituted to obtain a solution of affairs at Mexico City. Officials were not optimistic because of Carranza's refusal heretofore to heed representations from the Washington government.

Reports of Villa Successes
Francisco Llorente, Washington representative of General Villa and the commission government gave out the following summary of messages on the military situation:
General Angeles telegraphed from Monterrey that the campaign was progressing rapidly. "Coal fields ours," Macleay, Huixtla, defeated there by our generals. Huixtla and Poreya, including suffering many casualties, including loss of his field artillery and two machine guns. Within a few days we will have all the fuel we need for transportation purposes. In Monterrey all is tranquil and enemy evidently has not resolved to attack.
A message from Gen. Roque Gonzalez Garza, president of the constitutional government dated the twenty-sixth has reached General Villa at Guadalupe, in which it is stated that the convention forces occupied Xochimilco, Guadalupe, Toluca, San Angel and all smaller suburbs around Mexico City. Some of the troops had skirmishes with the Carranzistas inside the city.
Salvatierra and Alcanahua, two important places in the state of Guanajuato, have been captured by the convention general Arce. The enemy, abandoning their military stores, leaving the entire northern part of the state free from Carranzistas.
Apparently there is no prospect of the embargo on the port of Progreso being raised. A report to the state department today said it was the intention of Carranza to keep the port closed and that two gunboats would be sent there to take the place of the Progreso, which was blown up a few days ago. The gunboat Bravo has gone to Tampico from Vera Cruz and not to Progreso as previously reported it was announced.

SNOWSTORM IN WEST ABATING

KANSAS CITY, March 5.—Heavy clouds and local snow flurries spread tonight over the greater part of the section of the southwest covered by the heavy snow of Thursday. Lower temperatures were reported to be checking melting of the snow which threatened to cause floods.

All over Kansas, in western Missouri, northern Oklahoma and most of Nebraska the roads are impassable and many country schools and rural post-offices have been abandoned for two days.

OMAHA, March 5.—The heavy snowstorm, which has prevailed over Nebraska, South Dakota and western Iowa for the past 48 hours, abated tonight though snow is still falling in isolated parts. The storm impeded railroad traffic but the temperature was not severe and no suffering has been reported.

Farmers declare this unprecedented fall of snow will insure bumper crops.

NOT UNTIL REPUBLICAN IS BACK IN WHITE HOUSE WILL BUSINESS IMPROVE

—HILL
NEW YORK, March 5.—Chairman Charles D. Hilles of the Republican national committee, in a statement at the conclusion of a conference here today with a number of manufacturers, merchants and business men, announced that the present business depression was discussed and the decision was reached that "not until a Republican is returned to the White house can there be a return to prosperity." Chairman Hilles said there was no chairman and that the meeting was informal.
"The meeting simply was one of a number to be held throughout the country by business men and manufacturers interested in the success of the 'Republican party,'" Chairman Hilles added.
"We talked the situation over and arrived at the decision that President Wilson and his administration of national affairs had plunged the country into the condition in which it now finds itself. There can be no return of prosperity, it was believed, until a Republican is returned to the White house."
Mr. Hilles asserted that the administration now has a deficit of \$80,000,000. "This will be increased," he said, "to no one knows what amount when the war tax expires."
James B. Reynolds, secretary of the national committee, also was present at the conference. "Both Mr. Hilles and myself were invited to the meeting," he said.

'Teaches Girls Wise 'Talk

New York Woman Gives an Hour a Day to Debutantes; In the Morning Social Study Absorb Enough of Miss Edwina Spencer's Learned Conversation on Important Topics to Last Through the Day

Lucy Haffeken in the New York Tribune suggested to me by a woman who has come to my lectures for several years and who has a daughter just out this year. "That girl brought a few of her friends and so the group was formed. What do I talk to the girls about? Why everything of importance and interest happening in the world just now. This really is not what might be called a 'current events' class, because I go deeper into things than a cursory reference to all the affairs of the day can give.
And of course I don't run any real opposition to the newspapers. I mean that I do not dwell on things which are 'called news.' None of the girls will know anything about the divorce and murders and other scandals by coming to my classes.
"My classes are very informal. I do not lecture. I converse. The girls understand that at any time they can take part in the conversation by asking questions or stating opinions. Sometimes we have quite animated little debates. So far as I can I never state by my own prejudices (everybody has them I suppose) on any subject. I try to state the facts as I can find them. On some subjects—the war and suffrage for example—the war and suffrage are very important. I do not argue for anything. I simply state as clearly as I can how matters really stand.
The girls come to the class with their knitting now. It seems as if everybody in society is knitting for the soldiers in Europe. It seems to me very important that these girls should have information on matters of great importance. For those of course will marry men of affairs. It isn't just to make them able to talk brilliantly at dinner parties that I am interested especially in this sort of debauches. It is because they are going to be leaders among the women of tomorrow and they must be well prepared."

The Secret is Out.
The secret is out—at least we have heard vague rumors that not all the epigrams which fell from Mrs. Hilles' original. We have been told that for a stipulated sum one could have a resume of world events given to one without the trouble of reading endless papers and reviews. But where? And by whom?
Miss Edwina Spencer at the Plaza, is the answer.
There is one hour of the day which is set aside for debutantes to come to her. It is in the morning—just early enough so the buds can go from it to their luncheon engagements. In that hour Miss Spencer dispenses enough information to make the debutante assured that at dinner without fear of being out of the fact that she never has time to read the papers or magazines. The debutantes hour has been held only during the last ten days and already so it is said the conversation at coming-out parties has improved.
"This is the first year that I have had debutantes come to me," said Miss Spencer at her apartment in the Plaza, in a brief reel between classes. "It was the answer."

French Statement

PARIS, March 5 (via London). The following French official statement was issued here tonight:
In Belgium, in the region of the Dunes, we have organized solidly the advanced trench taken by us yesterday. The Germans attempted to push forward their trenches into contact with ours but 12 times our fire dispersed them.
To the north of Arras our counter attacks in the region of Notre-Dame de Lorette were crowned with complete success. On Thursday evening we captured a machine gun company. Rhymus has been bombarded all day long.
In Champagne on the eastern front, at Perthes, we made marked progress. On Thursday evening, a company of the German guards became surrounded in our lines and was captured. On Friday we gained ground on the whole front, carried a trench to the north-west of Perthes and occupied to the north of Perthes a strong where we took prisoners.
We captured 600 meters of trench and a number of trenches with a depth of 200 meters beyond the group which lies northeast of Meuse and make progress in the adjoining woods. Finally we gained possession of several trenches in the new north of Reims. In the morning of Friday a number of the enemy's losses were extremely high. The number of our troops was increased.

In the Artois region, at Valenciennes, we made important progress in the western portion of the village, the only part where the Germans still hold their ground.
In the forest of Le Prie, a German attack was repulsed early.
In the region of Badonvillers and in the region of Celles our attacks made headway having brought up into immediate contact with the enemy's wire entanglements. We repulsed a counter attack.
In Alsace, at Hatten, we captured a trench and a machine gun.

Russian Statement
PETROGRAD, March 5. The following official communication from the general staff of the Russian army was issued today:
A line of attack was opened at the front of the Russian army on the 4th of March. The attack was successful. The Russian army has gained ground in the region of the Dunes. The German army has been repulsed. The Russian army has captured a number of trenches and a machine gun.

German Statement
BERLIN, March 5 (via London). The following official communication from the German general staff was issued today:
Along the front in Russian Poland and west Galicia, yesterday general quiet prevailed. Fighting occurred in some sectors of the Carpathians but the situation on the whole is not changed.

FORMER SENATOR BARD OF CALIFORNIA DIES

Belgians Protest Against Seizure of Their Machinery

WASHINGTON, March 5.—The Belgian legation today issued a formal statement announcing the protest of the Federation of Belgian Steel and Iron Manufacturers to the government-general in Belgium against the seizure of more than \$3,000,000 worth of machinery which the statement declares was taken in violation of the Fourth Hague convention. The announcement further states that the German action practically nullifies the efforts which Belgian industries are making to resume their activities. The German authorities are further accused of exporting raw materials from Belgium to Germany.

It is easy to understand that such measures practically nullify efforts made in industrial circles to resume work in the Belgian plants and thus save from starvation many hundreds of thousands of workmen and their families. Besides it will seriously hamper the resumption of work when the war is over.

The Belgian government strongly protests against the measures which constitute a clear violation of article 5 of the regulations annexed to the Fourth Hague convention which prohibits that to be and machinery of private property, an never to be seized in an occupied country.

Further, the German authorities disregard a systematic way the prescriptions of the Hague convention which stipulate that requisitions from occupied areas will only be permitted if such they are made for the direct use of the army of occupation.

Not only have raw materials been taken to private owners and with many billions of dollars been sold in Belgium but the cotton, by and by, and the wool, of the country have been taken to Germany and sold in Germany at prices of 50 per cent above the current market prices. What is the result? The German government has not only taken the machinery of the Belgian steel and iron industry but it has also taken the raw materials and the finished products of the industry.

Like as if they had ascended from the lower regions, those demons (you knew who I mean) came to me and said, "Now, Bert, we can't stand for you criticising us the way you do every week, and we want to get along with you. Let us bury the hatchet, and we will sell you all the meat you want under one condition—that is, you sell us all the stock you have got in the feed lots and we will give you \$1.00 per hundred pounds over top market price." But I said, "Nay, nay, Pauline! I see just what you are up to. You want me to sell my stock and then you will stick your prices up and make me like it! But not for Willie!"

Today will be manna day at the New Live Stock Company. When the Israelites traveled from Egypt to the Promised Land, they got very hungry, and they had to get up early in the morning to get their manna, and if they did not get it by a certain hour they went without; but today, you don't have to get it by a certain hour; for a few small pieces of silver you can get enough meat to last you a week, as you will note by the following prices. Space will not permit me to quote everything I have for sale, but drop in or phone, for I know I can please you.

By SIDNEY ESPEY
WASHINGTON, March 6.—One hundred thousand persons throughout the United States have just signed a petition now on file in Washington urging the national government to establish food supply depots which shall protect the wage workers against the wartime increase in the cost of the necessaries of life.

The petition reads:

To President Wilson and to the Congress of the United States:

The second reason for the demand was the success of the government commissary system on the Panama Canal zone, where meat, butter, bread and all other food items were to be had at cheaper than in the United States. Former employees on the canal construction are now scattered throughout the country and from time to time they start petitions to Congress or home phase of the cost-of-living problem suggesting remedies that were tried out in the canal zone administration.

Germany Sets Example.
 Still another factor was the seizure by the German government of the entire grain supply of Germany, as a means of preventing waste, and of covering the food of that nation during the war at a minimum cost. German-Americans and Scandinavian-Americans never have been more impressed by this exercise of the power of the government to protect the food supply and the price of food at one and the same time. It is pointed out in an article in the United States. While no suggestion is made of government seizure of food in Canada, the practice of the German government is said to be enough to warrant thought in providing for a national supply of food prices, thus etc.

rect retailing from government deposits. As a means of getting the cost of living within control therefore, the petitioners are asking that the armament stores idea be applied to the country in general and that the economies of the canal zone administration be applied in that way to the grocery bill of mechanic and farmer alike. For legal sanction to this ambitious enterprise they invoke the cry: War measures for the war against high cost of living.

Rooms without growing plants are never really perfectly satisfactory in spite of the change of furniture from one place to another, the readjustment with fresh color from time to time. There must always be moments when the inanimate room borers or sticks, and then a time when a plant will - up its branches for the light and a time will not wait your leisure your desire to add it your joy in its presence.

Indeed, a very cold bare and stuccoed can be so cozy and lacking the introduction of a few flowering plants in the garden, that they can tempt you with the garden in the winter that shut you away from, still as frost, with color and fragrance the

office a day ago. A man in a British officer's uniform, driving a big motor car flying the British flag, asked Madame de Roet for certain information which did not appear to have any very definite connection with the Red Cross work in which he professed to be engaged. The well-dressed officer spoke excellent French but Madame de Roet, who knows our language so well, found it quite impossible to give him a word of a flash out of him. The officer's attention to speak which was presumably his own language in regard Madame de Roet's - picture. Not only did he refuse to give him the information - for, but also, the officer wanted the address. A few days later he returned to his residence and Madame de Roet had been asked to give a different and different sheet on this -

TOURISTS WHO STOP IN COLORADO MUST PAY 'FINE' OF \$2 TO PULLMAN COMPANY Stopovers Allowed Without Extra Charge Glenwood and Salt Lake, but Not Here

Tourists on their way to the Panpa-
cific exposition in California, from
Chicago and points east of the Mis-
sissippi river, who stop over in Co-
lorado Springs, are compelled to pay a
fine of \$2. The same thing holds true if
they visit Denver and Pueblo.
These same tourists can stop over
in Glenwood Springs or Salt Lake City
without paying a fine of any kind.
The fine is extracted by the Pullman
company, which permits no stop-overs
on Pullman tickets in Colorado Springs,
though it does allow stop-over privi-
leges in Glenwood Springs and Salt
Lake City. The through rate for a
Pullman ticket, lower berth, from Chi-
cago to San Francisco is \$11. The rate
from Chicago to Colorado Springs is \$5
and the rate from Colorado Springs to
San Francisco is \$5.

Stop-overs Not Allowed.
The persons desiring to stop in Glen-
wood Springs or Salt Lake City for as
long as 10 days may purchase a through
Pullman ticket to San Francisco and
use it all the way. But if the same
tourist desires to stop awhile in Colo-
rado Springs he must purchase a ticket
to Colorado Springs and a ticket from
Colorado Springs to the coast, paying
\$15 instead of \$13 which he would have
to pay for a through ticket.
The Pullman rate from Chicago to
Salt Lake City is \$3.50, and from Salt
Lake City to San Francisco the rate is
\$5. The combination is thus shown to
be \$13.50 on Salt Lake City, as against
a through rate of \$15 and a combina-
tion rate on Colorado Springs of \$15.
The rate from Chicago to Glenwood Springs
is \$7.25 and from there to San Fran-
cisco is \$7, making a combination rate
of \$14.25.
The tourist is permitted to save the
50 cents in Salt Lake City and the \$1.25
in Glenwood Springs by purchasing a
through ticket and using it after his
stopover. In Colorado Springs he is

not permitted to save the \$2 differ-
ence between the combination and thru
rates.
Salt Lake City has been given a
over privileges by the Pullman com-
pany now for several years, and is
said to have been established for
tourists the privilege of visiting
Yellowstone National Park, with-
out purchasing an extra Pullman
ticket. Glenwood Springs has its bath-
ing grounds, and there are several other
places in Arizona, as junction points
trips to the Grand canyon, and in
Idaho for side trips to the big
forests.

Springs Asks Same Privilege.
The question is often asked why
should not Colorado Springs have the
same privilege? It can be argued that
the climate is inimitable, that the
Pikes Peak as a central attraction
many other places of interest. There
now has a national park in its
vicinity.
Local railroad men are urging that
some effort be made to obtain
similar privileges for Colorado
Springs. If side trips to the Grand
canyon, big tree forests, a national
park are sufficient to give Salt Lake
City and points in Arizona stop-over
privileges this city also should have
them.
H. P. Clements is the general ticket
agent for the company in Chicago, and
it is to him that such a matter should
be referred.
Local people are working hard to
bring tourists here on their way to
California and it would be a good
thing if this fine of \$2 charged by the
Pullman company could be removed.
Only yesterday several tourists
walked into one of the local ticket of-
fices and wanted to know why they
had to pay more for a Pullman ticket
if they stopped off here than if they
stopped at Glenwood Springs and Salt
Lake City.

Mrs. Stewart on Committee to Save Birds Many Clubs Plan Reform in Trimming Hats

Mrs. Philip B. Stewart of this city,
wife of the speaker of the house of
representatives in the state legislature,
has been named chairman of the com-
mittee on the conservation of birds for
the Colorado Federation of Women's
Clubs. An active campaign is to be
waged to stop the women of Colo-
rado to decorate their hats with
ostrich plumes instead of the plumage
of birds which inhabit the mountains
and valleys and are useful in prevent-
ing insects from destroying crops of
farmers.
Mrs. John D. Sherman of Chicago,
chairman of the conservation depart-
ment of the General Federation of
Women's Clubs, is in Colorado organ-
izing a movement against the wanton
destruction of birds.

"The General Federation of Women's
Clubs is an organization which stands
for many kinds of conservation," she
says. "Our conservation policies come
under eight heads, conservation of nat-
ural scenery, soils, water and water-
ways, minerals, forests, birds, good
roads and the roadside planting and
conserving of flowers along the Lin-
coln highway.
Worked for Estes Park Bill.
"It was in an official capacity rep-
resenting an organization which be-
lieves thoroughly in the conservation
of natural scenery, that I visited Wash-
ington to ask that Colorado be given
the national park. The economic value
of natural scenery as a national asset
and its ethical influence on our lives
can hardly be overestimated. We need
more natural public playgrounds for
the people, municipal, state and na-
tional. Natural scenery is one of the
country's most important and most
enriching resources.
"The national parks we already have
should be developed and put into shape
for the use of the public as play-
grounds. I think that the Rocky
Mountain National park is one of the
best parks the nation has, and it is
especially adapted for the use of the
public.
"Americans before the outbreak of
war were accustomed to spend \$500-
\$600,000 annually abroad. The greater
part of this money was spent in seeing
scenery. When our national parks es-
pecially the one in Colorado are ready
for the traveler, it is reasonable to sup-
pose that much of the money spent in
travel abroad will be expended in
America.
Would Convert All Women.
"Along our policy of conservation,
we wish to convert all women in
America to the idea that the wearing
of plumage of birds tends toward their
slaughter to satisfy the vanities of
fashion. It is not necessary to kill
birds to provide attractive hats. We
have the ostrich and should use the
plumage of this bird. Their plumage is
attractive and they do not have to be
killed or maimed in order to provide
trimming for hats.
Our 2,000,000 women members will
be that they can toward preventing
the useless slaughter of birds. Mrs.
Stewart is enthusiastic and the women
of Colorado whom I have found to be
most kind-hearted and considerate.

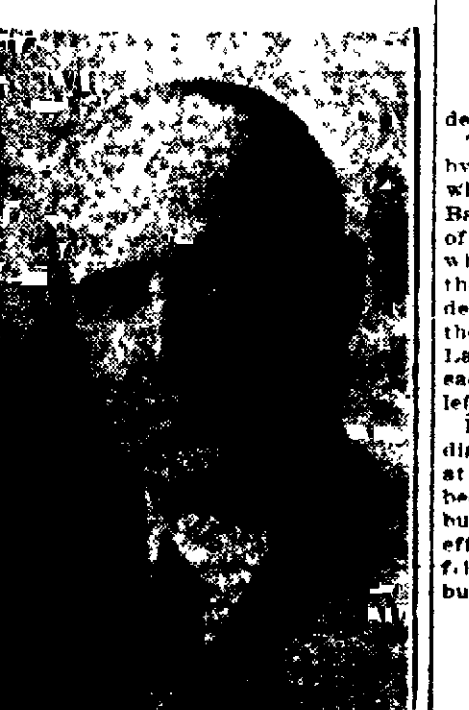

**LAW PERMIT FILING
ON 5-ACRE HOMESTEADS**
Under the provisions of the agricul-
tural appropriation bill, now a law,
five-acre homesteads may be filed on
in Colorado. The law will also pay
the building of the first of a series
of 10 in the section by the state.
The natural forests and other public
land tracts will soon be thrown open
to 30-day periods for five-acre hom-
esteads. The secretary of the land de-
partment has said that the applica-
tions have been filed in the applica-

will no doubt do all in their power
toward using sensible and humane
methods in having their headgear
trimmed.
"We are teaching our children to pro-
tect birds all birds. We are trying to
have the new federal migratory bird
law enforced, and if we continue to
adorn our hats with the feathers of
those very birds which we seek to pro-
tect, we will certainly be absurdly in-
consistent."
Mrs. Sherman is also interested in
the protection of wild flowers. Her
headquarters as chairman of the con-
servation committee are in Chicago.

REV. FRANK M. SHELDON

Services have been made. Services will
be held at the First Congregational
church each evening from March 11
to March 17, inclusive, except next Sat-
urday night. He will address the Sun-
day school of that church Friday and
a number of meetings with students of
Colorado colleges have been arranged.
The discussion here will include a
careful study of modern religious
thought. He will take up the adequacy
of Christianity, the religious educa-

NO ONE KNOWS COST OF REDEEMING FREE LANDS

Early Settlers Pay the Price, Says
Lauck, and Blaze Way for Future
Prosperity

No one knows what it costs to re-
deem Uncle Sam's free land.
This statement was made yesterday
by County Agriculturist W. H. Lauck,
who has just returned from Chico
Basin, where he attended the funeral
of a settler who was killed last week
while working in a well 25 feet below
the surface. This is the third acci-
dental death in the last three years in
the Chico Basin country, according to
Lauck, and the case is particularly
sad as a widow and two children are
left practically without support.
Rosa McClellan, 30 years old, was
digging in a well of sand character
at the bottom of a well where he had
been lowered on a rope. A cave-in
buried him under tons of earth. In an
effort to bring him to the top his
friends pulled frantically on the rope,
but it slipped from his hands, taking

away his last chance of life. Men
worked all night long to rescue him
alive. When he was brought to the
surface, physicians declared he had
been killed almost at once by the shock
of the cave-in.
A collection was taken at the meet-
ing, which Mr. Lauck attended, and
nearly \$50 was raised for the widow
and her children.
"The settlers pay the cost and pave
the way for future prosperity," said
Lauck, but no one knows how much
they pay.
McClellan was a hard-working
man, and like many other settlers, had
brought his family here from Okla-
homa. He was making a living and
settling on as well as could be ex-
pected when the accident occurred.
Now his family is without means and
stranded in Chico Basin. Each year
there are many cases similar to this
throughout Colorado and all the other
western states. The real pioneers come
to settle the government's free land—
and they pay the cost.

DESERT ENTRYMEN WILL KNOW BY NEW LAW

Settlers Are Granted From Three to
Five Years Additional Through
Recent Measure

Much to relieve desert land entry-
men of the west and insure their go-
ing through with their projects will
be done by the new law giving such
entrymen three to five years additional
time in which to make final proof of
their claims or purchase them by
nominal cash payment or convert
desert claims to homestead claims if
they cannot get water. The bill was
passed during the rush at the close
of Congress through the efforts of Sen-
ator Shafter and others.
There are three sections to the law.
The first provides for an extension of
not to exceed three years from the date
of allowance of such extension to all
entrymen who have complied with the
law as to yearly a settlement and who
can show proof that the land is ar-
able, capable of being able to be pro-
duced of such action, irrigation and
cultivation.
In Given Five Years.
The second section provides that
there is a 10 per cent entryman can
be an additional, in such rank, of

\$5 an acre in the attempt to reclaim
the land and where there is no reason-
able prospect, if the shorter extension
were allowed, of being able under ex-
isting laws to get sufficient water to
effect proper reclamation, such entry-
man may be given five years from the
date of his application in which to
perfect the entry in the manner re-
quired of a homestead entrant.
The third section is an enlargement
of the second. It provides that an
entryman entitled to the benefit of the
second section may, if he shall so elect,
within 60 days from the notice therein
provided, pay to the receiver of the
local land office 50 cents an acre.
Thereafter he may perfect his entry
on proof that he has put upon the land
agricultural improvements to the value
of \$1.25 an acre and has used the land
for agricultural purposes for three
years, and has paid to the receiver
at the time of final proof, the sum of
75 cents an acre.

The Photo-Craft shop of which
H. Auld and H. L. Standley are pro-
prietors, has moved to its new loca-
tion at 111 North Tejon street. For
the last six years the firm has been
engaged in the wholesale photograph
business at 144 East Pike's Peak ave-
nue. Increased business in the line of
commercial and art photography has
made it necessary for them to secure
more space. The shop now has one
of the finest enlargement rooms in the
west with modern equipment and a
retail and picture framing department
has been added.
The wholesale business for this firm
comes from every town from Colorado
to the Pacific coast and the firm has
the exclusive sale of views on the ex-
position grounds at the San Diego fair.
They also have the contract for mak-
ing the daily pictures for the Cham-
ber of Commerce from December 1 to
March 10. The purpose of these daily

pictures is to show the activities of
Colorado Springs as a winter resort
and the splendid climatic conditions.
The lantern slides used in Carl Rail-
comb in his lectures are also made by
the firm.
